

Coffee with the Mayor Recap

Date: May 18, 2017

Operational Issues	
Topic	Resolution/Action/Notes
North 7 th radar signs	North 7 th radar signs moved, had input regarding a 4 way stop at 7th and Fir plus maybe installing a speed table.
Speed limit on Priest Road	Why is the speed limit on Priest Rd 25 MPH? Going north on Priest Rd is downhill and requires constant breaking to maintain that speed.
Paving on Sequim Ave and why is it being allowed to deteriorate.	David Garlington explained how the planning and evaluation for street repair works. He also talked about the damage that had been done as a result of the winter weather with the freeze and thaw and a repeat of same for many weeks. That type of weather really damages the pavement.
ADA compliance on new businesses	When an individual business gets a permit for a new business; are they required to verify that their business entrance is ADA compliant?
No parking sign at Catholic Church	East Maple street on the South side just past the Catholic Church there is a sign that says "no church parking beyond this point." Who does the sign belong to and can they do this? This is not a City sign.
Scotch broom	What is the City was doing about clearing out the scotch broom? Not only cleaning it out but providing a way to dispose of the cuttings. She was told that the City did not have a "scotch broom" plan and that if it was on City right-of-way, the City could take action; if on private property we really cannot do much but make the citizens aware of the problems of letting it grow.
Disabled parking	A question came up about enforcement of the handicap parking spaces. If someone is seen parking in a handicap slot with a valid "sticker" but the person driving seems to be using the vehicle of the one who is qualified but they are not--what can be done.
Speeding	David explained that the speed radar signs had been moved from N 7th to Silberhorn in response to complaints about speeding in the South 7th and Silberhorn area. Folks from that area were happy and the North 7th folks were not. Some discussion about getting more of these signs plus maybe solar powered one.
Disabled parking at Civic Center	A gentlemen was concerned that there is a grate in the area where the handicap parking is at the Civic Center. He indicated that the grate was right were a citizen walking with a cane might put the cane through the grate.
Parking on Rhodefer	The issue of parking on Rhodefer near the exit from Haller Fields. Folks believe there needs to be more signs indicating where the no parking is and also more enforcement when there are events there.

Graffiti	There are some barriers between the Goodwill parking lot and Rite Aid to prevent cars from going between those parking lots. Seems there has been some graffiti sprayed on there more than once. Not sure how that issue can be stopped.
A citizen complained that on the way to this meeting he went east on Spruce. He said that between 2nd Avenue and Sequim Avenue there was a house being torn down and he was certain that there was someone burning garbage in the back of that lot.	Burning is prohibited in the city limits. Report violations to Clallam County Fire District #3 at (360)683-4242.
New store opening	One person wanted to pass on that the new Coastal store was now open.
