Coffee with the Mayor Recap

Date: March 28, 2019

In attendance Chief Sheri Crain, Public Works Director David Garlington, Sgt. Sean Madison, Jason Loihle

<b>Policy Issues</b>	
Topic	Resolution/Action/Notes
Is there 24-hour animal control?	There is not 24-hour animal control. Officers will respond to calls (barking dogs, loose dogs, dog bites, etc.) but they do not catch or transport.
Compression brakes usage	Where are we? David handled this. There were some in the audience who had some experience in driving truck and had some insight into why this might be happening. David indicated he had talked to the Post Master about the mail delivery truck and understood that that truck was no longer a problem.
Wave Cable	The individual who feels he should be getting internet service from WAVE cable since there is a City franchise agreement found that WAVE will charge him \$19,000 to provide him their service. He feels that is way too much and feels the City should cancel the franchise agreement. I told him I would discuss with the City Manager.

<b>Operational Issues</b>	
Topic	Resolution/Action/Notes
Disabled parking on Cedar Street during the Irrigation Festival	When the street is blocked off, these parking spots are not available. Can these 2 spots remain available during the weekend? Public Works staff has indicated these spots will remain open this year.
Police activity 5 <sup>th</sup> Avenue	What is going on at that location? There seems to be a police presence and/or fire and ambulance there regularly since the murder. Chief Crain handled the answer to this along with the status of the investigation. The investigation is on-going. There have been increased calls from that location since the murder.

Why are there no "green waste" containers from DM Disposal?	David answered this and explained the contract between the City and DM does not include green waste collection. However, an individual can get that service by contacting DM.
Snow removal	Several people had very positive comments about the snow removal and also about how quickly Public Works is sweeping the streets.
Intersection of Kendall and Hendrickson with the construction of the new homes at that corner	David responded to what the future street situation will be there as the homes are built. (57 homes will be built there in phases).
Fir Street Improvement Project	David talked about the plans for the upgrade of Fir Street. He told them that the construction should begin within the next two months and would probably last at least a year.
The People's Project	We were able to introduce the upcoming "Peoples Project." Not in any detail but what it was about and how they could get involved.
<b>Other Agency Issues</b>	
Topic	Resolution/Action/Notes
John Wayne Marina	Referred them to the newspaper and encouraged contacting the Port of Port Angeles. Next action will be the completion of the evaluation co-funded by the City and the Tribe and then the decision of how to present the proposal to the Port with a decision most likely not made until sometime in 2020.
