

Are you planning to construct a fence soon?

The Sequim Municipal Code, Chapter 15.04 gives the exemptions from requiring a building permit for fences that are 7 feet in height and less. The municipal code also provides direction as to the required "site triangle clearance". If you have a corner property; street or alley, the fence is limited in height to 42 inches above grade in the site triangle area. Such triangular area shall have one angle formed by the front lot line and the side lot line separating the lot from the side street, the length of which lot line sides of the triangle shall be 15 feet. The third side of the triangle shall be a line connecting the two lot lines at the 15-foot point on each.

The City Building Services encourages you to contact us if you have any questions about fences. Our office is currently located at 615 N. 5<sup>th</sup> Avenue and our phone number is 683-4908.
