RE: Acknowledgement of Public Responsibility
Statement of Inability to Provide Funds
Verification of Federal Aid Category

To Whom It May Concern:

The Jamestown S'Klallam Indian Tribe has identified portions of the City of Sequim roadway system as identified on the attached table. These routes are used by Tribal members for school routes, mail routes, and routes to employment locations and are crucial to the Tribe's access to goods and services and potential economic development.

Route	Section	Length	Route_Name	Class	Surface Type	Ownership	Construction Need

Total Miles		4.2					

The City is currently responsible for the maintenance of this road, and has sufficient funds to meet its maintenance responsibilities if and when a road section is improved. These roads are currently open to the public and will remain open to the public after they are added to the Jamestown S'Klallam Indian Tribe's Tribal Transportation Program (TTP) Road Inventory. Allowing the Tribe to include these roads on the TTP Inventory simply allows the Tribe the opportunity to provide potential funding to future roadway improvement projects. In no way does this action render the City less responsible for the road or in any way impact roadway ownership or jurisdiction.

The City understands the importance of these routes to the Tribe and is aware that these roads may need improvement at present and in the future to maintain public safety. At the present time, the City is unable to provide funding for the upgrades to these roads. If the Tribe with full approval from the City does perform roadway improvements to any of these sections of roadway, the City agrees to continue the required maintenance on the roads as it is presently the City's responsibility. In no way does this action affect the City's right to determine where and when maintenance funds are spent.

By signing below the City approves the Tribe to add the City roads to the Tribe's TTP Road Inventory for additional funding consideration.

Sincerely,

Annette Reese
