BY _____
Between the CITY OF SEQUIM and CLALLAM COUNTY

Pursuant to the terms of the MULTI-AGENCY RECIPROCAL MAINTENANCE AGREEMENT between Clallam County and the City of Sequim (as well as other agencies not part of this Request for Service), which agreement was entered into by Clallam County on June 18, 2003 and by the City of Sequim on 6-6-05, the undersigned hereby mutually request the following services:

Snow Plowing, Sanding, and Roadside Mowing more particularly described as follows:

Clallam County requests the City of Sequim to plow, sand, and mow certain County Roads and, reciprocally, the City of Sequim requests Clallam County to plow, sand, and mow certain City Streets. The roads and streets are identified on the attached map (Exhibit 1), which may be changed by mutual agreement at any time during the term of this Request for Service. Exhibit 1 is intended as a guide for the City and County to plan such work but, more importantly, the City and the County expect to communicate face to face at the director/supervisor/foreman level, or by phone, email, or other suitable means on an as-needed basis to determine specific needs.

The City and County agree to plow, sand, and mow the other's roads and streets to the same standard as they utilize on their own roads and streets unless agreed otherwise. Both the City and the County will inspect their roads and streets periodically to assure that the work is satisfactory.

Pursuant to Section III, paragraph 3 of the Multi-Agency Reciprocal Maintenance Agreement, it is intended that the costs on City Streets incurred by the County and the cost on County Roads incurred by the City will be approximately equivalent and that no reimbursement will be needed by either party.

Either party may terminate this Request for Service by giving thirty (30) days' written notice to the other party; otherwise the term of this Request for Service will match the term of the Multi -Agency Reciprocal Maintenance Agreement.
