Note 1 We assisted a company in sweeping permeable pavement and removed sediment from them with our vac

Note 2 Private dewatering station

Note 3 As long as it's sand, gravel, mud, yard debris then we take to a site we own. If it has an oil spill or heavy sludge then we don't do it; bring the big boys in from out of town. We don't do testing.

*These are known providers within Clallam County, Sequim does not endorse or recommend specific providers.
