#	RESPONSES	DATE
1	It is important to make all the areas accessible by children and the adults that are responsible for them by making walker and wheel chair accessible walkways. Don't put uneven grass pathways between the smooth pathways and the children.	9/29/2023 12:09 PM
2	Awesome to see such creative designs. These parks are a huge value added to our our community. I would like to see a zipline in future designs.	9/29/2023 9:27 AM
3	They all look beautiful. Looking forward to seeing these designs become reality! Thank you!	9/29/2023 8:34 AM
4	I was a professor of recreation and leisure, so I've selected options per play theory. One concern I have is designs should also consider original cost plus long term maintenance costs. Safety risk management should also be a focus, so I would hope design safety has been considered for all nine options.	9/29/2023 8:20 AM
5	Please give consideration for areas that are elder-friendly: flat, even surfaces; seating accessible by wheelchair or walker. How about some dog/pet free zones for those of us who aren't as in love with canines as are the critters' doting owners?	9/28/2023 5:33 PM
6	we need a outdoor sport court for hockey. Its a growing sport in WA with the new NHL team.	9/28/2023 1:01 PM
7	Love all the concepts, really but especially want to see unique design, local themes and ease of use/maintenance. Also prioritize water features/play for cooling off in summer without having to go to a pool!	9/28/2023 9:45 AM
8	Play grounds should be for all kids, no matter who they are...	9/28/2023 9:31 AM
9	why are we voting on options the city does not have the funding to pay for?	9/28/2023 8:26 AM
10	Prioritize safety from injury & inclusion for children of all abilities at all sites.	9/28/2023 7:45 AM
11	As a former parks and recreation person, please take these designs to the area schools and let the kids vote. Adults don’t always know what kids will like.	9/27/2023 10:52 AM
12	Can't wait!!! Thank you 🙏🙏🙏🙏	9/24/2023 1:31 PM
13	All the Sims are white!	9/24/2023 12:59 PM
14	I dont have any comments lol	9/23/2023 9:08 PM
15	Climbing is such an important yet underrated activity for children. If they are not provided with some type of intentional climber, they will unsafely climb all over the other toys.	9/23/2023 8:05 AM
16	Thank you for doing this---my wife, daughter (10), and I love Sequim's parks!!!	9/22/2023 7:47 PM
17	I had my 10 year old pick her favorite.My kids like giant towers and big slides. Real wood materials are nice too. I have lived in sequim my whole life, this is nice to see this. Miss the giant swings at carrie blake from the 80s, 90s	9/21/2023 5:00 PM
18	I like it the way it is. I hope it’s gonna be fun the new way to.	9/21/2023 4:51 PM
19	Incorporating a splash pad to any of these designs would be such an added benefit to all children and families to enjoy for most of the spring and summer.	9/21/2023 10:31 AM
20	I love especially having the musical instruments included in the park plan	9/21/2023 9:12 AM
21	A splash pad or even a seasonal splash pad within the parks would be a nice addition to the area.	9/20/2023 7:23 PM
22	I do like Playground concepts that are open and parents can see children from all angles. Less hiding spaces that better this way criminal activity doesn't take place.	9/20/2023 9:35 AM

23	Please make the ground surface wheelchair accessible! No wood chips or sand or gravel, kids cannot move a wheelchair through that.	9/19/2023 9:53 PM
24	I would love to see dollars allocated for a pump track or some kind of dirt with hills biking course.	9/19/2023 8:04 PM
25	I love that this is a project. Honestly, I'd be happy with any of these amazing ideas.	9/19/2023 12:34 PM
26	There are so cool	9/18/2023 7:29 PM
27	So excited about these. Sequim has needed new playgrounds!	9/17/2023 10:00 AM
28	More swings!	9/16/2023 3:57 PM
29	It should be Kaleidescope with water creatures.	9/15/2023 8:30 PM
30	Let's get it done!	9/15/2023 7:08 PM
31	Please consider adding a splash pad or giant sprinklers for summer time.	9/15/2023 7:05 PM
32	So hard to pick . Very one did great job	9/15/2023 1:23 PM
33	I am the Physical Therapist for the Sequim School District. If you would like any assistance in choosing appropriate equipment, I'd be happy to help. Please make sure that the surface for each playground is rubber matting and not woodchips. Many children in wheelchairs choose to crawl on playgrounds and it is not safe on woodchips. They are also unable to navigate woodchips in their WC's. Thanks!	9/12/2023 10:32 AM
34	I watched the proposal video and as a mother of children with special needs and an extensive study of play I feel there are missed opportunities in the proposal to create inclusive playground connection. How many playground type suppliers were used in this proposal? It all seems more focused in 5-8yrs of age and isolating ages in both ends. I realize that there are options for these other ages but they are not given a focus. I believe there so much more that could be created and these proposed designs are or quickly will be out dated before they are built. As a destination to travelers around the world let out playgrounds be inspiring and on the forefront on play instead of stuck in the past like we already are.	9/11/2023 7:32 PM
35	So happy this is happening!	9/11/2023 1:07 PM
36	We have 6 kids ages 1-13	9/10/2023 2:53 PM
37	Can't wait to find out if all three will be update! Love that we are focusing on family part of Sequim!	9/10/2023 10:38 AM
38	Anything they can climb, slide down, and swing on! My kids love to play hide n seek, tag, and pretend play. Thank you for doing this!! Another thought is having more picnic tables out there. We love to have lunch or birthday parties at the park!!	9/9/2023 10:32 PM
39	Good grief, this looks like it will cost an exorbitant amount of money. Let's focus on providing for our kids by having good infrastructure-plenty of safe drinking water, well maintained wastewater facilities, safe streets, and proper drainage. Scale down the size and cost of these playground projects.	9/9/2023 2:42 PM
40	Looks like an enormous amount of money for all three parks. Where will this come from? Which of our living expenses will this come from. Property taxes are difficult now!	9/9/2023 2:31 PM
41	For Margaret Kirner park I would like to see more grass. Maybe leave out the walking path and add more grass. Maybe people in the neighborhood love to bring their dogs there and just sit out on the grass. Also, with theses changes there may be more traffic. Many people use W Pine St as a cut through since there are no stop signs and some travel well above the speed limit. I would like to see a stop signs at W Pine and 4th or some speed bumps on W Pine to get cars to slow down so close to a park.	9/9/2023 10:08 AM
42	I would love for the city to use this opportunity to also expand the skate park. I have seen a proposal which includes a more beginner friendly area. This would greatly improve the skate park and allow more people and kids to enjoy it. I also hope the redesign of the play area does not include demolishing any part of the existing skate park. Thanks for your consideration.	9/8/2023 3:35 PM
43	Water/splash pad PLEASE!	9/7/2023 10:05 AM
44	I Hope to see diverse seating options and diverse sensory play stations to accommodate	9/6/2023 5:02 PM

	children and adults in wheelchairs, as well as those who are partially weight-bearing but with limited mobility (canes, crutches, walkers, etc.) and requiring space for their mobility aides. Will there be seating that is inclusive for groups that need a space to keep their crutches or canes within reach while they are seated? Will there be tables that include wheelchair access for more than one person, but not side by side? An example of accessible seating for a diverse group might include a rectangular table with 2 benches, on the long side of the table, that are separated by an empty space large enough for an adult in a wheelchair to turn 360 degrees without the worry of bumping into either seat and space on one of the short ends of the table for another wheelchair user to be seated where the table continues beyond the seating on either of the longer sides of the table. The other short side of the table could include a bench seat with back support and a harness suitable for older children with stability problems, and there could be an adjustable velcro strap to help contain crutches or a cane on the side of this bench. Integrated features like grab bars, back support, high chairs, benches with back support/harness, or places to hang a backpack/diaper bag/lunchbox will greatly improve the safety of all. Having places to store items off the ground will increase accessibility and make a safer and more convenient shared space for all. Having a table or two like this and other tables that can accommodate at least one wheelchair will create a more welcoming park. Any spaces accessible for wheelchairs can also be useful for strollers, etc. Please consider different swing/swinging bench options that might accommodate bariatric needs and have harnesses for the safety of older children with larger bodies and for older children who have physical or mental disabilities requiring extra safety measures. Will there be access to playground equipment for adults in wheelchairs to play with their children or help their children if the need arises? In this day and age, there are some other things to be mindful of. Lending libraries and food pantries are being set up in many neighborhoods. Please consider how the parks may allow members of the community to utilize these shared spaces to set those sorts of resources up to reach people who need them.	
45	I grew up in Sequim my whole life. This is such a refreshing sight to see! Thank you for putting our kids first!	9/6/2023 2:19 PM
46	TIRE SWINGS!!!!!	9/6/2023 11:41 AM
47	If there is the possibility of creating a splash pad with sprinklers I think it would be extremely helpful for families!	9/5/2023 9:28 PM
48	A splash park included in any one of these three parks would be ideal for our summer months. Families would love a place to cool off and have fun at the same time!	9/5/2023 8:40 PM
49	I have a 3 year old son who is on the autism spectrum, and often has a hard time using the play structure at usual play grounds. I'm hoping that these parks will make his experience as fun as everyone else's! Thank you	9/5/2023 5:32 PM
50	Please bring in a splash pad to at least one place!!! It would be so nice to have a local spot for the kids to cool down in spring&summer!	9/5/2023 4:19 PM
51	Maybe you could add a small water feature to each park ??	9/5/2023 3:41 PM
52	Can you guys pleasee put in a splash pad! I think the kids would really love it during summer and the parents that can't afford to take their kids to the pool or drive to the lake can take their kids to the splash pad!	9/5/2023 3:26 PM
53	Please consider adding a splash pad to one of the parks	9/5/2023 12:55 PM
54	Carrie Blake needs a splash pad!!!	9/5/2023 11:43 AM
55	Forest creature in sequim would be awesome! My kids would love that one most!!	9/4/2023 2:04 PM
56	If a water feature can be implemented at any of the parks, I believe the kids would appreciate it.	9/2/2023 12:15 PM
57	This is so amazing that Sequim is finally going to upgrade something for the children - long overdue and highly anticipated!! Thank you so much.	9/2/2023 8:05 AM
58	Thank you for this opportunity!	9/1/2023 9:30 PM
59	Need a water feature style play park	9/1/2023 8:14 PM
60	I liked the idea of the sunshine theme at Carrie Blake, but I liked the larger fixture with twirling slide in the kaleidoscope as it is more fun for older toddlers and elementary age kids	9/1/2023 6:32 PM

61	There should be a splash pad put in for kids to also cool off and parents can't always afford the swim pool or gas to get there please it dose get hot here and the children would love it and it would bring more people to our parks to play	9/1/2023 5:15 PM
62	I wish so badly one of them had a splash pad	9/1/2023 4:29 PM
63	Maybe a zip line.	9/1/2023 2:36 PM
64	It's about time Sequim starts putting families first! over 17 yrs of living here and we have not seen any growth or changes to the parks. Our grown kids comment all the time how the parks have never changed but PA can make beautiful changes to theirs. The skate park has been trying to find funds for several years so they can make the skate ramps safer than the high step wall drop ins that there currently, however, the city never supported them. But when the elderly pickleballers wanted a court they supported the pickle ball club unanimously. Everyone complains that they have to commute because there are No Doctors here. Doctors have families to support and before committing to an area they look at what's available around the area. When schools aren't supported, parks are bleak, and not a-lot around for families, they don't consider our area. Time for Sequim to Wake up and start moving towards the further and quit living in the past. The days of the good-ol boys running the show are gone!	9/1/2023 2:06 PM
65	Please keep existing trees, as they are Earth's lungs and providers of shade in global warming.	9/1/2023 1:51 PM
66	Please consider having soft ground in case our babies fall! This is so exciting !	8/31/2023 5:43 PM
67	I am the Board President of the Jefferson Universal Movement Playground - JUMP! that opened November 2022. Our families really enjoy having perimeter fencing to allow their kids to run around and play without worrying about them running off. I'm not sure if your plans include that or not, but it might be a consideration. Also, EWF is not easy for wheels - wheelchairs, strollers, walkers. Rubber tiles or playground grass is much easier for wheeling and accessibility, although more money. Only a few of your designs show truly accessible merry-go-rounds. We have the LSI We-Go-Round in the JUMP! playground and it is very popular with all the kids, whereas the Omnispin shown in many of your designs, which Salish Coast Elementary school has on their playground is not utilized much by the kids. I don't know if anyone on your team has visited JUMP!, but I would be happy to meet any interested parties and discuss our choices and decisions made. It was a quite a journey to develop the playground keeping all ages and abilities in mind. We also discovered the importance of shade as the climbing Orcas we installed needed to be covered up this Summer as a child burned her hands on it. Also the darker surfacing, Blue playground grass was much warmer than the tan tiles we have under our swings. I don't know if you have seen this article: https://www.washingtonpost.com/opinions/2023/08/14/hot-playgrounds-burn-kids-shade/ Congrats to your vision and concepts. I am a PT that has been working in Clallam County serving children in the Birth to Three program. I have met families occasionally at parks in Sequim and PA. As you know, PA has more options at the moment for access and inclusion. I'm so happy you are moving forward with this and I have forwarded this info on to some of the families I work with. Best of luck with this!	8/31/2023 2:38 PM
68	Please include some monkey bars, but love the designs! Thank you!	8/28/2023 7:33 PM
69	The city needs to build more Pickleball courts at Carrie Blake	8/28/2023 7:26 PM
70	I chose plans based on the diversity of each. It seems these have the most to offer different interests and levels of physical ability.	8/25/2023 7:21 PM
71	Hard to believe the Kirner name is in on this all the while trying to destroy the Happy Valley neighborhood.	8/22/2023 9:19 PM
72	These designs are all 'off the shelf! My grands can play on the store bought toys in anybody backyard! I don't care for any of the designs. I only voted for them because the survey forced me to choose.	8/22/2023 7:51 AM
73	If a splash pad can be done somewhere my kids would love that too!	8/21/2023 7:34 PM
74	I have three grandchildren, 3, 6, and 8 who live nearby and who I help care for frequently. We are big park users! The older 2 have been to the accessible park in Bremerton multiple times and love it! So happy this improvement will come to Sequim!!!	8/21/2023 10:25 AM
75	Thank you so much. The little kid equipment at Carrie Blake really needs the makeover as it's quite rusty!	8/20/2023 10:07 PM

76	Any design chosen needs to have the forest animal added! Thx	8/20/2023 1:42 PM
77	Adding some kind of splash pad for summer months would be extremely nice. Kids don't have a simple splash pad area to go play to cool off in the summer months.	8/20/2023 9:07 AM
78	zip line! thank you! My kids did the voting - 6 and 9 years old	8/19/2023 2:33 PM
79	Strongly suggest public restrooms and water spigots (to refill vessels) be available, and some shade in play & bench areas. Thanx.	8/19/2023 1:57 PM
80	I asked my 6-year old to do this survey, and here are his comments: 1) Keep the swings!!!!, 2) I hope it's fun.	8/19/2023 8:10 AM
81	Would love to have Carrie Blake playground all on one side so parents with multiple age kids don’t have to be split between the two sides. It’s hard to be two places at once already let alone a busy park. Also would love to have a splash pad in Sequim for summer months and a pump track!	8/18/2023 9:27 PM
82	Excited for these parks for my two kids!	8/18/2023 7:22 PM
83	Please keep the port-a-potty at marget kirner Park! Or add a full, functional restroom similar to the ones at Carrie Blake. 😁	8/18/2023 6:29 PM
84	Love the Sasquatch	8/18/2023 12:50 PM
85	I live on Glendale Drive. I think the playground plans are wonderful. However, I urge you to make road improvements on W Silberhorn to ensure better safety of those who are coming to the park and neighbors who use the road for walking and biking. The road is very narrow between River Road and the park, and many drive too fast on the stretch to and adjacent to the park. . This is particularly noticeable during Little League season, when people who do not consider this their neighborhood are rather careless about speed and show low awareness of non-motorized users. Added traffic will be a safety issue if road improvements are not made--e.g. widening, "sharrows," or other engineering/signage improvements. Thanks!	8/17/2023 3:00 PM
86	The Dr. Standard Parks don’t seem very exciting nor good looking. Perhaps off for the Dr. Standard park some rocket and plane climbing structures, musical interactive options?? There are many scientists, airports and musicians in sequim, I’m sure they celebrating them as well as would attract some donations.	8/17/2023 2:23 PM
87	I checked random choices above because they were required. What I would like to request is simple function for low cost, rather than fancy design concepts. In particular, a set of chin-up bars, maybe 4', 6', and 8' high, allowing children and adults to hang from a bar without their feet touching the ground. Every of the dozens of towns I've ever lived in, other than Sequim, has this. It is cheap and allows all kinds of play and exercise. Thank you.	8/17/2023 12:38 AM
88	Taller slides and Adult/teen swings are a must at each	8/17/2023 12:26 AM
89	Thank you for all of the work that’s gone into this, and for reaching out in ways that are easy for us to be participants in the decision making and process.	8/16/2023 8:30 PM
90	Please spare me from the god awful AstroTurf. At least don't use the blue kind, what on earth are you thinking? I'm offended that my three choices in question 4 are "baseball, baseball, and mythological creature."	8/16/2023 8:18 PM
91	What an amazing opportunity to give our kids something new and special. If they can't have functioning schools at least maybe they'll have new places to play <3	8/15/2023 4:23 PM
92	Something safe for kids under 4	8/15/2023 2:47 PM
93	We really want which ever design is chosen to include a friendship swing. We also would like Carrie Blake park to include a basketball court and possibly a zip line or other equipment for older children.	8/15/2023 2:23 PM
94	Include water play elements	8/15/2023 12:36 PM
95	Add swings to all plan designs.	8/15/2023 6:39 AM
96	Love the idea of Forest Creature. The best playground I have seen in keeping with this theme is in Kenai City, AK. Our daughter will love a new playground, thank you!	8/15/2023 2:26 AM

97	Exciting!	8/14/2023 11:33 PM
98	I love the inclusive, wheel chair and handicap options. I have a two year old and he doesn't have any handicaps. But I know that children with handicaps are massively underserved in our community and I would love to see them able to play at our parks too.	8/14/2023 10:27 PM
99	Everything should somehow be attached. It makes it easier to play Groundies.	8/14/2023 10:19 PM
100	Super excited for any of these to come!	8/14/2023 7:17 PM
101	All are lovely and i don't think you can go wrong with any! Great idea.	8/14/2023 5:28 PM
102	So cool that you seek feedback from the public	8/14/2023 5:09 PM
103	Nnn	8/14/2023 11:09 AM
104	They all seem great honestly. I like the idea of incorporating more of Sequim and the Northwest in the design. Water, sasquatches, fossils and baseball all seem fun. When I think of the sunshine design in the park though I think of it being too hot, so I like the shade from trees concept.	8/14/2023 10:52 AM
105	Covered sitting areas/tables	8/14/2023 10:24 AM
106	Ensure slides for all ages and accessible for the little kids under 3. Reflects the same options for all ages to play as most new parks hinders kids under 3 for options to play.	8/14/2023 8:15 AM
107	I have 3 kids that will love the park upgrades once they become a reality!	8/14/2023 6:21 AM
108	Add a splash pad or water feature to the Carrie Blake Waterway playground!	8/13/2023 10:45 PM
109	Continue to include the community in the design process, ongoingly. Children can draw pictures, for example. What do the teens want? What do the elders want? How are you reaching out to them? Surfacing is the most important - and most expensive component of an inclusive playground. Wood chips can cut wheel chair tires . Some children and people of other ages - move by scooting on their hands and bottoms - for example - wood chips can hurt Do not cut corners on surfacing . Everything else can be planned and added in modules. Include - in the design aspect - citizens of all abilities and ages -true inclusion - also can help protect the parks - a sense of ownership. Think long term - the inclusive park near the Sequim School District kitchen - is going on 23 years old. The team that did the research for that park - included teachers, a physical therapist and other specialists. Field trip research if inclusive playgrounds included an in-person tour of the Experimental Education Unit at the University of Washington. Likely, the most important aspect of that playground - is that an agreement was reached by theSequim School District and the City of Sequim - tha it could be used as an inclusive playground - by the public - for 100 years. When the community was surveyed - young people - were fearful "the nines" (9' basketball hoops) would be removed. Their voices were heard - and "the 9's" were kept as a component of that park - meaningful to many people who continue to use it today. Honor the things that are traditional and important to those who use those spaces. I have no concrete opinion on the design - I like all of the designs shown - as a starting point. Inclusive playgrounds can be a hard sell - due to expense - especially of the accessible surfacing . The goals can change - as far as scope. You are offering choices to people - if and when they want to use the space - they can - inclusivity - helps remove prejudice as a great obstacle to overcome in good governance - at any level.My hat is off to you, you are teaching children that all members of society are to be treated with dignity and respect - and disability - can then become opportunity - for everyone. "Your disability is your opportunity" - Kurt Hahn , Founder of Outward Bound	8/13/2023 6:23 PM
110	This is cool I love it cool ideas	8/13/2023 5:38 PM
111	This is really exciting! Much needed!	8/13/2023 5:34 PM
112	Having a variety of swings is really amazing for all children and disabilities.	8/13/2023 1:28 PM
113	I loved features of both kaleidoscope and waterway for Carrie Blake. Kaleidoscope has more play structures for more kids, but the animal figures from waterway are wonderful. If there's a way to incorporate both…? Similarly with Margaret Kirner, Chutes and Ladders seems to have more interactive features, but the figures from The Ancients are wonderful.	8/13/2023 12:05 PM
114	All of the options look great, can't see well enough on line to really judge. Has there ever been a plan to add a volleyball court to any of the parks? A lot of exercise and socialization for not a lot of square footage.	8/13/2023 11:39 AM

115	Grew up in Sequim live in p.a now but still have family and reasons to bring the kids the town to play! Love the ideas!	8/13/2023 10:21 AM
116	Make it as inclusive as possible would be great to see and water features to play in and splash pads for summer would be amazing!!!	8/13/2023 10:20 AM
117	I love these ideas as caregiver to my grandchildren, ages 3 & 9, during day. But I would love to see a little Waterpark at at least one of the parks. With our weather changing, we should include ways to cool off in plans. There was a great little park built in Yelm a few years ago. Very fun and popular. https://www.ci.yelm.wa.us/play/parks/yelm_city_park.php	8/13/2023 9:53 AM
118	Excited for the new toys!	8/13/2023 9:29 AM
119	Any playground designed with keeping kids in range of sight will be extremely helpful.	8/13/2023 8:44 AM
120	Please no bark, slivers are the worst. Maybe include a cool garbage shoot like the goat in Spokane, to help kids enjoy cleaning up.	8/13/2023 4:40 AM
121	Would be nice to have larger photos of the options. It is hard to see what we are voting for. Also would rather see additional parks funded, rather than redesigning existing parks.	8/12/2023 11:34 PM
122	Please disregard my answers above -they are required so you can see this comment. This survey as presented is useless. These pictures are too small to see anything. It would be helpful if there were larger pictures and a description of the features and differences between the designs.	8/12/2023 10:56 PM
123	All the designs look very nice. I did pick my favorites though.	8/12/2023 10:50 PM
124	I like the animal and creature themes	8/12/2023 10:49 PM
125	Fun ideas!	8/12/2023 10:46 PM
126	This is so great! Thanks for asking for feedback!	8/12/2023 10:38 PM
127	A zip line would be awesome too!	8/12/2023 9:07 PM
128	More structures made to have shade/shelter? Otherwise, that all look great Thank you!!	8/12/2023 9:02 PM
129	I let my 8 year old pick, since she's a kid 😁	8/12/2023 8:56 PM
130	Are any of these splash pad convertible? With global climate change and the lack of amenities in this area I believe a splash pad is really important for the kids and would help families feel as though the city cares for them and their future.	8/12/2023 8:41 PM
131	Please consider a splash park feature. Thank you for considering features available for kids with disabilities!!!!	8/12/2023 7:21 PM
132	The concepts that were more nature and animal inspired were better.	8/12/2023 7:19 PM
133	Splash park would be better	8/12/2023 5:40 PM
134	Having the area well monitored will be helpful	8/12/2023 4:36 PM
135	We need a splash pad and a pump track to be in Sequim. Also I hear this a lot being at Carrie Blake but the big kids park and little kids park need to be closer together and on the same side so families with siblings aren't split across the lot while playing on equipment.	8/12/2023 4:24 PM
136	I just wanted to express gratitude and excitement about our city making sure to have inclusive spaces for people of all abilities. Thank you for this!	8/12/2023 2:20 PM
137	A splash pad during summer would be a great addition. Zip line for kids (smaller).	8/12/2023 1:18 PM
138	All of the designs are wonderful ideas!	8/12/2023 12:14 PM
139	My child chose these playgrounds	8/12/2023 11:36 AM
140	Splash pad would be so great for kids and families!!! It is time for our community to invest in our kids to help prevent poor behavior with more activities accessible	8/12/2023 10:52 AM
141	Would love a splash pad water feature to cool off in the summer!	8/12/2023 10:33 AM
142	We drive fro. PA yo come to your Sage parks in Sequim. We love the new designs.	8/12/2023 10:28 AM

143	As a parent I'd love to see some updated parks . Seems like a lot of parks around here are very basic and boring . My 5 yr old has ufun for about 15 20 mins tops due to outdated equipment.	8/12/2023 10:10 AM
144	Its hard to see what each playground would include. But mostly id want items that can be played by large children as my special needs son may like to climb and swing and play as an adult.	8/12/2023 9:54 AM
145	Adding a splash pad would be top request!	8/12/2023 9:22 AM
146	A small splash park area would be awesome.	8/12/2023 9:13 AM
147	I'd love to see a splash pad at the park! Also, after visiting Cordata park in Bellingham last week, a parquet (I don't know the spelling...par cor?) course was a ton of fun for older kids. Not accessible, but a nice way to incorporate the exercise bars too.	8/12/2023 9:01 AM
148	For the waterway theme, there should be a small splash park that would be open for the summer/warmer months.	8/12/2023 8:59 AM
149	N/A	8/12/2023 8:40 AM
150	Splash pad or spray park! Our local communities are missing these and they would be a great addition to Sequim!	8/12/2023 8:38 AM
151	Would really love a splash pad park!	8/12/2023 8:37 AM
152	Would be nice to have one of those mommy baby swings that they both can ride on	8/12/2023 8:23 AM
153	None	8/12/2023 7:52 AM
154	Our children always love the tire swings. I hope all the parks will have them.	8/12/2023 7:49 AM
155	A splash pad or water feature of some kind would be amazing for the kids.	8/12/2023 7:27 AM
156	Would love the possibility of a splash pad.	8/12/2023 6:53 AM
157	Please put benches all over- Lots of them. We older parents and grandparents enjoy watching the kids play but if we have to stand or sit on the ground , Makes the trip to the park short cause it's not fun to stand around. Make some cool seating options, not just plain lame cold metal benches. Cater to the transportation these kids have.	8/12/2023 6:52 AM
158	Thank you for sharing.	8/12/2023 5:16 AM
159	As a parent to 2 small children I’m blown away by these designs - they are amazing! These remind me of Penny’s Playground in Chehalis, WA - one of my kids favorite playgrounds.	8/12/2023 1:00 AM
160	Adding a complete enclosure fencing for kids on the spectrum that like to run off/wander	8/11/2023 11:32 PM
161	Please no bark, wood chips, pea gravel or sand. Kids (and adults) can't wear their sandals and play. You have to stop and empty your shoes so often and it gets old FAST. More shade. While most of the year is fairly cool, the summer months can get HOT! My kids play soccer in Sequim and Carrie Blake Park gets a lot of attention because it's right there. There's not enough shaded areas for adults while we watch or for the kids while they play. Shane Park in Port Angeles has a setup that keeps the kiddos cool while running around and it's fantastic. They don't get burnt and they stay cool so they can play for hours. Also, swings that big kids, like 10 and up, can use. These small ones are too small and there's never enough. Who doesn't love to swing? I know I still do haha! So excited to see these changes come!	8/11/2023 11:30 PM
162	I love the theme of The Ancients, but like having more (bigger) play structures. Our parks could benefit by having areas for tiny kids as well as larger structures than we have for the older ones.	8/11/2023 11:16 PM
163	Splash pad at Carrie Blake for the warmer months would be so amazing for our youth	8/11/2023 10:37 PM
164	Options for older kids would be nice ages 7-12	8/11/2023 9:59 PM
165	Please contact me, Jennifer Lopez, principal of Greywolf Elementary. I can share about some similar playground upgrades that will be occurring at both Sequim Elementary schools. 360-582-3301 Thank you!	8/11/2023 9:46 PM
166	These pictures are too small to figure out what the structures are intended for! My grandson is in a wheelchair and the only playground that is good for him is the one near the hospital in Port	8/11/2023 9:37 PM

	Angeles. What is the material for the "flooring"? Do you have moms of disabled kids in the group that is planning these parks? Please make one of the smaller parks truly inclusive like the one in P.A.. (Please don't use a bigfoot statue. It will scare the babies!)	
167	Don’t forget to make all playgrounds inclusive for every child and their disability	8/11/2023 9:34 PM
168	We look forward the new playground in Sequim!	8/11/2023 9:29 PM
169	Need lots of climbing. Ropes and walls	8/11/2023 9:27 PM
170	The main Carrie Blake park playground area should not be remodeled or replaced.	8/11/2023 9:25 PM
171	Need to have play structures for older children	8/11/2023 9:24 PM
172	Considering the proximity of the Mannis Mastodon Site, Kirner's 'The Ancients' seems to me, the clear best choice.	8/11/2023 9:18 PM
173	Please add splash pads!	8/11/2023 9:09 PM
174	-the dome in "Kaleidoscope" will be hard for the caregivers to see children inside -if "waterway" is chosen please make sure the whale is not painted in black like a killer whale- it'll be hot in the sun -love the swing, especially the one in "play ball!" but a little border/fence may be good around it because little kids can run into it and the kids on them cannot see behind, which could cause serious accident.	8/11/2023 9:08 PM
175	I have four boys who I’d love to take to these parks. Please let locals know how we can help like we did for Dream Park in PA!	8/11/2023 8:41 PM
176	I like the Waterway and Ancients themes better, but those designs look overly sparse for play areas.	8/11/2023 8:34 PM
177	Splash pad!!	8/11/2023 8:30 PM
178	Wonderful to see these design options! It's important to incorporate an area for small children. When I've taken my daughter to parks it seems like they are geared toward school-age children. I would love if Sequim would consider a splashpad as well. It would be a draw for families, as there is not one readily available on the peninsula.	8/11/2023 8:29 PM
179	Splash zone, hang glider,	8/11/2023 8:10 PM
180	Please specifically bring this to the special educators w/ SSD. Ask them to ask their kids about this.	8/11/2023 8:00 PM
181	Please put a splash park!	8/11/2023 7:59 PM
182	These are all great ideas!	8/11/2023 7:57 PM
183	Love that my kiddo will get park close to our home so we do t always have to go to the dream park	8/11/2023 7:50 PM
184	A splash pad available!	8/11/2023 7:39 PM
185	Honestly disappointed in all of these concepts! Why are there not more natural playground options with wood, rocks and uncolored metal? More shade?? These all look the same from a catalog. I wish there was more thoughtful design based on the town's agricultural history, geography and natural beauty. I also wish I could vote for a new concept for all of the parks. Are these being designed by someone local to the area??? It shows that they are not right now. This town really is in desperate need of a spray park as well.	8/11/2023 7:33 PM
186	A splash pad incorporated would be wonderful	8/11/2023 7:33 PM
187	SPLASH PAD OR WATER FEATURE PLEASE	8/11/2023 7:20 PM
188	It's about time for playground upgrades! Thank you!!!!	8/11/2023 7:18 PM
189	I understand it has nothing to do with these park proposals however, Sequim needs a skating rink. The old JCP building would be perfect. It's centrally located, our city has loads of families, and the tourists that flock to this area would also be drawn to it. It's something to think about as it would be a solid investment in this community. It's an alternative, indoor form of exercise and entertainment for all ages. It would benefit our community immensely. Float the idea around and I think you'll be amazed at how many people want a skating rink in Sequim. The city could only benefit. The positives far outweigh any negatives and it would	8/11/2023 7:03 PM

	truly be folly to pass up the opportunity to bring a great amount of joy to our community. It would be a wonderful way to bring people together in this town.	
190	Would love to see a splash pad incorporated somehow. We have enough families/tourist here in the warmer months it makes sense to have one. Poulsbo has one and it's always full	8/11/2023 7:00 PM
191	A splash pad would be a nice addition to the Carrie Blake Playground.	8/11/2023 6:56 PM
192	Thank you for your efforts for all kids!	8/11/2023 6:53 PM
193	SPLASH PADS PLEASE!!!	8/11/2023 6:50 PM
194	Include activities for parent and grandparents while keeping the kids in view.	8/11/2023 6:43 PM
195	Maybe add a splash water pad to one of the parks since sequim has none when it's warm out!	8/11/2023 6:41 PM
196	A splash park incorporation would be wonderful at carrie bake	8/11/2023 6:31 PM
197	Splash park!	8/11/2023 6:14 PM
198	I think this is a great idea and I am happy to see the investment in our community.	8/11/2023 6:09 PM
199	It would be nice to have picnic tables and a drinking fountain or water to refill a water bottle.	8/11/2023 6:09 PM
200	Should really add in a splash pad to one of the parks there is so much space at carry Blake park	8/11/2023 6:06 PM
201	Second choice would be kaleidoscope, geo and field of dreams. My kids and I go to Carrie Blake frequently - we are just outside of Sequim. Thank you for continuing to keep these parks clean, fun and inclusive for our kids!	8/11/2023 6:05 PM
202	No splash pad/water activities for hot days?	8/11/2023 5:55 PM
203	Please make sure we have wheelchair availability on swings and other play equipment.	8/11/2023 5:55 PM
204	I also think since you're doing this from scratch a water feature such as something that could run in the summer months would be super beneficial and some thing that we don't have here in Clallam county I know that Tacoma area has a couple, and Bremerton has the water feature down by the water at some sort of water play for the summer would be amazing	8/11/2023 5:42 PM
205	Amazing addition to the city and for families! These will be wildly popular! Water play at one would be fun also!	8/11/2023 5:40 PM
206	Thank you! These are so needed for the community!	8/11/2023 5:37 PM
207	We recently designed and installed the outdoor play areas at the Boys & Girls Clubs in Sequim and PA. The large clumb-on, spinning features and big swing don't have as many kids playing on them at once as we hoped. I think plan B incorporates more opportunities to engage more kids at one time, which this park will experience during baseball season. I like features of Plan A, swings. If we had to do over we'd do it a little differently than we did, and our playground resembles Plan C. I like the nod to baseball Plan B has with the climb ball. (I am a former Little League Board Member)	8/11/2023 5:24 PM
208	This is a WONDERFUL idea!!! Please though, only do one park at a time so our kids still have somewhere to play!	8/11/2023 5:23 PM
209	Can't wait for new parks for the kids	8/11/2023 5:05 PM
210	Definitely provide shady spots for families with young ones. And maybe a cool water feature to turn on in the summer that pops up some where like they have in huge cities for kids to play	8/11/2023 5:04 PM
211	Looking forward to some new and updated parks for our kids!	8/11/2023 5:03 PM
212	It is impossible to intelligently make a choice from those tiny pictures of options! Needed are descriptions of what's included in each park. I thought if I clicked on them, they would increase in size to at least be able to see clearly what is in each playground . . but that was not to be. Even with a magnifying glass, it is difficult to get a clear idea of each choic's features. A poorly designed survey, in my opion. (And, should that be Forest Creatures (plural)?	8/11/2023 1:32 PM
213	Thank you for this exceptional work for our community needs, thank you! Also very interested in conversations re the Blake property that borders Trinity UMC and what the future holds. As	8/11/2023 10:04 AM

	a partner in many community events, Trinity is strongly interested in our relationship as we all work together for the needs of of community; especially the kids. Thank you!
